Dear Doasta,

Thanks for your mail. I am fine. Hope you are also doing well. Received your last mail. I have also received your mail regarding Marine Academy.

I am very much busy also and becoming lazy. Actually I was very much busy during the last one month. Because my daughter was preparing her Student Visa and other formalities to go to Australia. She has gone to Malborune on 18th of last month to join Monash University to do her Master in Environmental Science. Also busy I do lot of 'falsoo' works. For the system I hope you understand what I mean.

Well ; It is a good idea to have a bonafide Marine Academy Alumni Association. I hardly find any Marine Academy ex-students are interested. Few attempts have been failed in past decade.

Sajjid is an efficient and competitive officer but he is under pressure due to various political reasons.

Frequent load shedding in Chittagong I could not sit in my computer to complete the letter. So, now I am sending this mail from my office. Well, regarding your business, I contacted to Bangladesh Shipping Corporation and Lams Cleaford (Mr. Anolwar's Shipping firm). Due to low import of government wheat vacuvators are not very high demand. There are four to five organizations each having two dozen of vacuvators don't get enough business regularly. Private wheat importers use bagging in both at outer anchorage & in jetties to despatch in the district town.

This morning I talked to Mr. Rahim Meah of Ancient Shipping a good friend of mine and engaged in Govt. wheat lightering business. Probably he needs some Vacuvators for North Korea.

Please contract him Tel : 0171 721239 & 717373

E-mail :

meah@spnetctg.com

Things are reasonably good. My wife will shift to Chittagong very soon.

With best regards,

Quamrul Hossain

Member (Operation)

Chittagong Port Authority.
